THE NATIONAL COLLEGIATE ATHLETIC ASSOCIATION
P.O. Box 6222
Indianapolis, Indiana 46206-6222
317-917-6222
www.ncaa.org
October 2016

NCAA, NCAA logo and NATIONAL COLLEGIATE ATHLETIC ASSOCIATION are registered marks of the Association and use in any manner is prohibited unless prior approval is obtained from the Association.
Section 1 • Introduction

During the 2016-17 academic year, the Association will sponsor 90 national championships – 42 for men, 45 for women, and three for both men and women. Among the men’s championships, three are National Collegiate Championships, 13 are Division I championships, 12 are Division II championships and 14 are Division III championships. Among the women’s championships, six are National Collegiate Championships, 12 are Division I championships, 13 are Division II championships and 14 are Division III championships. The combined men’s and women’s championships are National Collegiate Championships.

The Pre-Championship Manual will serve as a resource for institutions to prepare for the championship. This manual is divided into three sections: General Administrative Guidelines, Sport-Specific Information, and Appendixes.

The first section applies to policies applicable to all 90 championships, while the other two sections are sport-specific.

Section 1.1 Definitions

Pre-Championship Manual. Resource for institutions to prepare for the championship.
Administrative Meeting. Pre-championship meeting for coaches and administrators.
Appendixes. Any supplemental documents to be provided and distributed through the various resources.
Championship Administrator. The NCAA staff member responsible for the operational oversight of the championship.
Games Committee. The committee assigned to supervise the conduct of each championship session at a specific site. For finals sites, the games committee is typically the NCAA National Committee.
NCAA National Committee. The sport committee with direct oversight responsibilities for the championship.
Playing Rules. The rules under which the competition will be conducted.
Predetermined Sites. Those sites that are selected to host before the participant/team selections announcement.
Preliminary Rounds. The rounds of the championship before the final or championship round.
Regional Alignment. The geographic location of institutions or regional advisory committees.
Schedule of Events. Official event schedule – includes all required activities (e.g., practices, banquets, etc.).
Selection Criteria. Policies and procedures in place to guide the selection process.
Site Selection. Policies and procedures in place to guide the site selection process.
Squad Size. Number of student-athletes per team allowed to dress in uniform and participate at the championship.
Tournament Physician. The physician designated by the host institution/conference to serve as the chief medical advisor for the championship.

Section 2 • Championship Core Statement

The championships and alliances staff strives to administer competition in a fair, safe, equitable and sportsmanlike manner so that the experience of the student-athlete is paramount.

This is attained by:
Ensuring student-athletes’ optimal experience.
Executing championship events reflecting appropriate quality and values to/stakeholders – student-athletes, coaches, administrators, member institutions, sport committees, fans, broadcast partners and corporate champions/partners.
Coordinating all aspects of the championship in an efficient, effective manner through common operating policies and practices, using internal and external resources.
Integrating championships with broadcast and corporate relationships in a manner that maintains the integrity of the championship.
Assuring effective management of the business aspects of the operation.

Enhancing the assets of the NCAA and their value by collaborating with internal and external expertise to achieve heightened exposure (e.g., community programs, fan events, banquets, anniversaries, etc.).

Section 3 • Concussion Management

[Reference: Concussion Management in Constitution 3.2.4.18 in the NCAA Division I Manual, Constitution 3.3.4.16 in the NCAA Division II Manual, and Constitution 3.2.4.16 in the NCAA Division III Manual.]

The NCAA has adopted legislation that requires all active member institutions to have a concussion management plan for their student-athletes. Traveling institutions shall follow their concussion management plan while participating in NCAA championships. If a participating team lacks appropriate medical staff to activate its concussion management plan, the host championship concussion management plan will be activated.

The legislation notes, in part, that a student-athlete who exhibits signs, symptoms or behaviors consistent with a concussion shall be removed from athletics activities (e.g., competition, practice, conditioning sessions) and evaluated by a medical staff member (e.g., sports medicine staff, team physician) with experience in the evaluation and management of concussions; a student-athlete diagnosed with a concussion is precluded from returning to athletics activity for at least the remainder of that calendar day; and medical clearance for return to athletics activity shall be determined by the team physician or the physician’s designee from the student-athlete’s institution. In the absence of a team physician or their designee, the NCAA tournament physician will examine the student-athlete and will determine medical clearance. Within the rules of the sport and policies established for the championship, medical staff should have access to the injured student-athlete without interference (e.g., coach).

A concussion is a brain injury that may be caused by a blow to the head, face, neck or elsewhere on the body with an “impulsive” force transmitted to the head. Concussions can occur without loss of consciousness or other obvious signs. A repeat concussion that occurs before the brain recovers from the previous one (hours, days or weeks) can slow recovery or increase the likelihood of having more severe and/or long-term problems. In rare cases, repeat concussions can result in brain swelling, permanent brain damage and even death.

Section 4 • Conduct

Section 4•1 Certification of Eligibility/Availability

[Reference: Certification of Eligibility/Availability in Constitution 3.2.4 and Bylaws 12, 13, 14, 15, 16, 31.2.1.7.1, 31.2.1.7.1.2 and 31.2.2 in the NCAA Division I, Manuals Constitution 3.3.4 in the NCAA Division II Manual and Bylaws 31.2.2 and 31.2.1.5 in the NCAA Division III Manual.]

Only student-athletes eligible under Bylaws 12, 13, 14, 15 and 16 may compete in NCAA championships. Member institutions are required to certify the eligibility of their student-athletes before the beginning of each academic year and to withhold ineligible student-athletes from all intercollegiate competition.

Member institutions are reminded to notify the NCAA national office before the selection date for each championship of any student-athlete who may have participated in regular-season competition but subsequently is determined to be ineligible or unavailable for NCAA championship competition.

DISCOVERY OF INELIGIBILITY OF A STUDENT-ATHLETE AFTER SELECTION

If an institution fails to report an ineligible student-athlete and the omission is not discovered until after the institution is selected to participate in the championship, necessitating the institution’s withdrawal from the championship, that withdrawal
shall be considered as one of the years of ineligibility, provided another institution participates in the championship in place of the disqualified institution. If the discovery of the ineligible student-athlete occurs so near the beginning of the championship that the governing sports committee does not have a reasonable period of time to replace the disqualified institution in the bracket, that fact shall be taken into consideration in determining the number of years the disqualified institution shall be ineligible to participate.

Section 4.2 Drug Testing

[Reference: Bylaws 18.4.1.4 and 31.2.3 in the NCAA Division I Manual and Bylaws 18.4.1.5 and 31.2.3 in the NCAA Division II, and III Manuals.]

Student-athletes who compete in NCAA championships may be subjected to drug tests in accordance with Bylaws 18.4.1.4 (Division I); 18.4.1.5 (Divisions II and III) and 31.2.3, and may be determined to be ineligible as a result thereof. Only student-athletes who have consented in writing to such testing are initially eligible for these championships; and thereafter, student-athletes who are tested shall remain eligible only if they test negative.

Section 4.3 Honesty and Sportsmanship

Individuals employed by (or associated with) a member institution to administer, conduct or coach intercollegiate athletics and all participating student-athletes shall act with honesty and sportsmanship at all times so that intercollegiate athletics as a whole, their institutions and they, as individuals, shall represent the honor and dignity of fair play and the generally recognized high standards associated with wholesome competitive sports.

Section 4.4 Misconduct/Failure to Adhere to Policies

MISCONDUCT

Misconduct in an NCAA championship is any act of dishonesty, unsportsmanlike conduct, unprofessional behavior or breach of law, occurring from the time the championship field is announced through the end of the championship, that discredits the event or intercollegiate athletics. Each games committee shall hold an administrative meeting with the representatives of participating institutions to review and explain the policies related to misconduct.

FAILURE TO ADHERE TO POLICIES AND PROCEDURES

A governing sport committee may assess a financial penalty against an institution for failure of any of its representatives to adhere to the policies and procedures governing the administration of the competition. This includes, but is not limited to, failure to comply with the procedures and deadlines for submitting scores, score sheets, schedules, rosters and entry/march-in forms for qualification and other materials necessary for the efficient administration of the competition. Click here to see the full misconduct/failure to adhere policy and procedure and fines.

Section 4.5 Sports Wagering Policy

Sports wagering includes placing, accepting or soliciting a wager (on a staff member’s or student-athlete’s own behalf or on the behalf of others) of any type with any individual or organization on any intercollegiate, amateur or professional team or contest. Examples of sports wagering include, but are not limited to, the use of a bookmaker or parlay card; internet sports wagering; auctions in which bids are placed on teams, individuals or contests; and pools or fantasy leagues in which an entry fee is required and there is an opportunity to win a prize.

The prohibition against sports wagering applies to any institutional practice or any competition (intercollegiate, amateur or professional) in a sport in which the Association conducts championship competition, in bowl subdivision football and in emerging sports for women.

A wager is any agreement in which an individual or entity agrees to give up an item of value (e.g., cash, shirt, dinner, etc.) in exchange for the possibility of gaining another item of value.
STUDENT-ATHLETES
A student-athlete involved in sports wagering on the student-athlete’s institution permanently loses all remaining regular-season and postseason eligibility in all sports. A student-athlete who is involved in any sports wagering activity that involves college sports or professional athletics, through internet gambling, a bookmaker, a parlay card or any other method employed by organized gambling, will be ineligible for all regular-season and postseason competition for at least one year.

POSTSEASON
In championships in which a bracket format is used, student-athletes, coaches and administrators may not participate in bracket competitions where there is both a required entry fee and an opportunity to win a prize. Student-athletes and administrators may participate under current NCAA rules in bracket contests where there is no entry fee but a possibility of winning a prize. Some NCAA member schools, however, have chosen to ban student-athletes from participating in these types of bracket contests.

HOSTING OPPORTUNITIES
No predetermined or non-predetermined session of an NCAA championship may be conducted in a state with legal wagering that is based on single-game betting on the outcome of any event (i.e., high school, college or professional) in a sport in which the NCAA conducts a championship.

Section 4•6  Student-Athlete Experience Survey
After each championship, student-athletes will be asked to participate in a post-event survey intended to capture feedback on their recent championship experience. Institutional administrators will be copied on the email and asked to ensure participation from all student-athletes and coaches.

Section 5 • Elite 90 Award
The Elite 90 award was created to recognize the true essence of the student-athlete by honoring the individual who has reached the pinnacle of competition at the national championship level in his or her sport, while also achieving the highest academic standard among his or her peers. The award is presented in every sport, every division, and goes to the student-athlete who has the highest cumulative GPA of all student-athletes on all teams competing at the finals site. Each institution that has at least one student-athlete qualify for the final round/site is eligible to nominate a student-athlete for the award. One student-athlete per championship will receive the award, and the announcement of the winner will be made at the finals site.

Institutions that wish to nominate a student-athlete must do so through an online nomination process. To receive more information or access the online form and submit a nomination, go to NCAA.org.

Section 6 • Fan Travel
NCAA Travel provides an easy and affordable way for family and fans to follow their favorite student-athletes and team(s) as they participate in NCAA championships competition. Travel arrangements completed through NCAA Travel help support NCAA student-athletes. Please direct your fans to NCAA.com/travel to search and book online hotel, car and air travel, all in one easy transaction.

Section 7 • Logo Policy
[Reference: Bylaws 12.5.4, 31.1.7 and 31.1.8 in the NCAA Division I Manual, Bylaw 12.5.4 in the NCAA Division II Manual and Bylaw 12.5.3 in the NCAA Division III Manual.]

A student-athlete may use athletics equipment or wear athletics apparel that bears the trademark or logo of an athletics
equipment or apparel manufacturer or distributor in athletics competition and pre- and postgame activities (e.g., celebrations on the court, pre- or postgame press conferences), provided the following criteria are met:

1. Athletics equipment (e.g., shoes, helmets, baseball bats and gloves, batting or golf gloves, hockey and lacrosse sticks, goggles and skis) shall bear only the manufacturer’s normal label or trademark, as it is used on all such items for sale to the general public; and

2. The student-athlete’s institution’s official uniform (including numbered racing bibs and warm-ups) and all other items of apparel (e.g., socks, headbands, T-shirts, wristbands, visors or hats, swim caps and towels) shall bear only a single manufacturer’s or distributor’s normal label or trademark (regardless of the visibility of the label or trademark), not to exceed 2¼ square inches in area (rectangle, square, parallelogram) including any additional material (e.g., patch) surrounding the normal trademark or logo. The student-athlete’s institution’s official uniform and all other items of apparel shall not bear a design element similar to the manufacturer’s trademark/logo that is in addition to another trademark/logo that is contrary to the size restriction.

Section 8 • Research

It is essential that all research efforts be coordinated by a single entity within the national office structure in order to ensure maximum efficiency and quality, avoid unnecessary duplication of effort on the part of staff and membership, allow the NCAA to prioritize research efforts given the limited time and resources of our members and adhere to federal guidelines on the responsibilities of researchers to properly protect research participants from harm.

For the purpose of this policy, “research” is defined as any systematic collection of data for the purpose of drawing generalized conclusions.

Any proposal to conduct research must be submitted to the NCAA research staff for review at least six weeks before the project begins. Research to be conducted during NCAA championships or related events, and which involves competing student-athletes or attendees, is also subject to review. This includes all research, including that conducted by or under the direction of any employee, contractor or paid consultant of the NCAA. It also includes any research conducted by other persons, but funded totally or in part by the NCAA. Any research that detracts from the student-athlete experience or requires physical activity may not be permitted at the championships (preliminary and finals sites). The NCAA retains sole discretion as to whether to allow such research.

Examples of activities considered research include: Conducting surveys of athletics administrators, college presidents, faculty, coaches and student-athletes; leading an organized focus group; funding an outside study under the auspices of the NCAA; conducting market research at championship events; secondary analysis of data originally collected by the NCAA from people for other purposes; any systematic collection of data from the membership or other entities; etc.

Section 9 • Religious Conflicts

[Reference: Bylaws 31.1.4.1 and 31.1.4.2 in the NCAA Division I Manual.]

Institutional Policy. If a participating institution has a written policy against competition on a particular day for religious reasons, it shall inform the NCAA national office on or before September 1 of each academic year in order for it or one of its student-athletes to be excused from competing on that day. The championship schedule shall be adjusted to accommodate that institution. (Adopted: 4/22/98, Revised: 8/11/98, 10/28/99, 5/2/13)

Individual Championships. In individual championships, an athlete must compete according to the institution’s policy regarding Sunday competition (if the institution has no policy against Sunday competition, the athlete shall compete on Sunday if required by the schedule).

Section 1•6 Equipment

The Wilson Solution B0701R basketball shall be used for all of the 2017 tournament games.

Section 1•7 Rules

The Women’s Basketball Rules Book, operating manual policies, team manual and championship guidelines shall be strictly enforced. Details pertaining to games management shall be administered by the NCAA Division I Women’s Basketball Committee. These documents can be accessed by visiting www.NCAA.org.

Section 1•8 Uniforms

The higher-seeded team will wear its light uniforms. If the higher-seeded team’s light uniforms are not in a color contrasting with the lower-seeded team’s uniforms, the lower-seeded team must adjust and wear a contrasting color.

LOGOS

Refer to Logo Policy in General Administrative Guidelines, Section 7.
Section 2•1  Championship Format

The Division I Women’s Basketball Championship provides for a field of 64 teams. Automatic qualification is granted to 32 conferences and the remaining 32 teams will be selected at large.

Sixteen first- and second-round sessions will be conducted Friday and Sunday (March 17 and 19) or Saturday and Monday (March 18 and 20) at the home institutional sites of the top-16 seeded teams. Winners will advance to four neutral, predetermined regional sites (Bridgeport, Lexington, Oklahoma City, Stockton), March 24 and 26, or March 25 and 27, which will be comprised of four teams each. The four regional winners will meet for the national championship in Dallas on March 31 and April 2.

SCHEDULE OF EVENTS

Refer to the participant manual (available December 2016) on www.NCAA.org for the schedule of events.

START TIMES

The NCAA will confirm starting times and sequence of games for the first round when the tournament bracket is announced on Selection Monday, March 13, at 7 p.m. Eastern time on ESPN. Second-round game times will be announced after the first round has concluded. Regional-round game times will be announced after the previous round has concluded. The national semifinal game times are 6:30 and 9 pm CT, and the national championship game time is 5 pm CT.

TRAVEL PARTY

The official travel party for all preliminary rounds (i.e., those for whom transportation and per diem expenses will be reimbursed by the NCAA) is 75 individuals. If the host institution’s team is participating, the official travel party is 52 individuals. The official travel party for the Women’s Final Four is 100 individuals.

Section 2•2  Results

RPI

The Rating Percentage Index was created in 1981 to provide supplemental data for the Division I Men’s Basketball Committee in its evaluation of teams for at-large selection and seeding of the championship bracket. The Division I Women’s Basketball Committee began using the RPI in 1984.

The RPI never should be considered anything but an additional evaluation tool. The RPI is just one of many factors reviewed by the committee. Each committee member analyzes information differently and may, in fact, weigh factors differently than another member. The committee evaluates what a team did during the regular season to warrant selection to the tournament field. The committee members must combine the knowledge they have gained throughout the season by watching numerous games, along with the data available, and evaluate each team based on its success throughout the season.

An institution’s RPI ranking consists of three factors that are weighted as follows:

1. Division I Winning Percentage — 25 percent of the RPI
2. Opponents’ Winning Percentage — 50 percent of the RPI
3. Opponents’ Opponents’ Winning Percentage — 25 percent of the RPI

The committee modified the existing RPI calculations for the 2011-12 season to mirror those currently used by the NCAA Division I Men’s Basketball Committee. The RPI formula will count each road victory as 1.4 in the win column instead of 1.0. Each road loss will be valued at 0.6. Conversely, each home victory will be valued at 0.6 and each home loss at 1.4 in the win or loss column. Neutral-site games will remain the same with a value of 1.0.
Section 2•3 Selection Information

AUTOMATIC QUALIFICATION

The 2017 Division I Women’s Basketball Championship bracket provides for a field of 64 teams, 32 of which automatically qualify as conference champions. Conferences that will automatically qualify for the 2017 championship are:

<table>

AT-LARGE SELECTION

Selection of at-large teams is made by the Division I Women’s Basketball Sport Committee, which receives reports from the regional advisory committees comprised of coaches from the 32 Division I conferences.

The committee will select the 32 best teams to fill the bracket, regardless of conference affiliation.

Bylaw 31.3.3 will be followed by the Women’s Basketball Sport Committee in selecting at-large teams for the championship. The Women’s Basketball Sport Committee will not notify institutions of their placement in the bracket. Institutions are encouraged to watch the televised announcement of the bracket on Monday, March 13, at 7 p.m. Eastern time on ESPN and visit www.NCAA.com for more information.

TRAVEL INFORMATION

Air Travel

Institutions have been assigned a username and password for the travel system that was sent to the director of athletics. Before the tournament field is selected, team administrators should go online to www.shortstravel.com/ncaachamps and submit the following:

- Contact information for the person responsible for arranging all travel. This is the primary person Short’s Travel will work with to finalize all travel arrangements.
- Contact information for the director of athletics, senior woman administrator, primary team administrator, sports information contact, head women’s basketball coach and director of basketball operations.
- The manifest should include all individuals who may be a part of the travel party, including student-athletes, coaches, band members, cheerleaders and mascots. Institutions should indicate each individual’s status (i.e., student-athlete, coach, athletics administrator), as well as the approximate weight of each traveler. Institutions should also submit a list of cargo, game equipment and band equipment, if applicable.
- Institutions should list their preferred day, time and place of departure for both their outbound and return trips. Preferences for both win or lose scenarios should be included. It is very important to include this information as Short’s Travel will begin working to arrange travel immediately upon release of the bracket.
Upon announcement of the tournament field, Short’s Travel will email a confirmation to the primary travel contact. If the institution has not already done so, the institution’s primary travel contact should log onto the website and submit the official travel party manifest, request departure cities, dates, times, etc., and finalize any preliminary information they have submitted. Short’s Travel will begin securing flight arrangements for the team immediately upon release of the bracket, if the requested information has been submitted. Teams should contact Short’s Travel at 866-655-9215 to confirm their information.

Ground Transportation
Participating institutions SHALL BE REQUIRED to make all ground transportation arrangements with the official NCAA provider, GO Ground Options. The NCAA will be directly billed for all ground transportation expenses; therefore, institutions will not be reimbursed directly for the ground transportation costs that are reimbursable under the NCAA travel policy.

The NCAA will pay the actual costs for charter buses. The number of buses paid for is determined by the travel party size.

Per the transportation policies, the NCAA will reimburse the following:

For teams that are required to drive to the site of competition, the NCAA will pay the actual costs of the bus for the round trip from campus to the site of competition, including all days at the site. Teams must use GO Ground to secure ground transportation when they drive to the site of competition.

Section 2.4 Site Selection

FIRST AND SECOND ROUNDS
First- and second-round sites will be awarded to the top-16 seeded teams that submit a bid that meets the requirements for hosting.

In the event that a top-16 seeded team does not submit a bid or its bid does not meet requirements for hosting, the Division I Women’s Basketball Sport Committee will select a host from the remaining submitted bids that meet the requirement for hosting.

In order to adhere to the bracketing principles, it may not be possible to select the next-highest seed to host. Therefore, any institution that wants to host is encouraged to submit a bid.

REGIONAL ROUNDS
Regional competition will be hosted at predetermined, neutral sites.

Regional hosting parameter: A team may be assigned to a regional site where its institution is hosting, provided the team has not played more than three regular-season games, not including conference postseason tournaments, in the arena.

Regional sites and hosts for 2017 are: Bridgeport, Connecticut, at Webster Bank Arena (Fairfield University and University of Connecticut); Oklahoma City at Chesapeake Energy Arena (University of Oklahoma and Oklahoma City All Sports Association); Lexington, Kentucky, at Rupp Arena (University of Kentucky); and Stockton, California, at Stockton Arena (University of the Pacific).

CONTACT INFORMATION
If you have any questions regarding the bid process, please contact Meredith Cleaver at mcleaver@ncaa.org.
SAFETY AND SECURITY PLAN

Based upon a review of current and future Championships competition venues, discussions with safety and security experts, and their own expertise and knowledge, the NCAA has established a Safety and Security Advisory Group (SSAG) to develop a compilation of Best Practices for NCAA Championships, which can be found in the “Help/Other Resources” tab in the championship host portal. We urge each competition venue to take these Best Practices into account when developing its safety and security program.

Host institutions have submitted a safety and security plan for their venue, which would be inclusive of the NCAA Championships Safety and Security Team contact information form, located in Appendix A of the Best Practices document.

Appendix C • Selections Principles and Procedures

NCAA DIVISION I WOMEN’S BASKETBALL CHAMPIONSHIP
PRINCIPLES AND PROCEDURES FOR ESTABLISHING THE BRACKET

There are three phases in the process:

I. **Select** the 32 at-large teams;
II. **Seed** the field of 64 teams; and
III. **Place** the teams into the championship bracket.

<table>
<thead>
<tr>
<th>General Principles for Selection, Seeding and Bracketing</th>
</tr>
</thead>
</table>

The basketball committee will abide by the following principles:

- A committee member ("member") shall not be present during discussions regarding the selection or seeding of a team the individual represents as an institutional or conference administrator.

- At no point in the process shall a member vote for a team the individual represents as an institutional or conference administrator.

- A member shall not answer questions about the team the individual represents, except for factual questions (e.g., dates of injuries, status of injured players). A conference administrator is permitted to answer general questions (i.e., relative strengths of teams within a conference) about teams in the conference the individual represents. An athletics administrator is permitted to discuss other teams in the individual's conference only when asked.

- All votes will be by secret ballot.

- Principles must be followed by the committee during selection, seeding and bracketing of the championship field. **Selection, seeding and bracketing principles are not considered in priority order.** All principles must be adhered to throughout each of the three processes. The committee will make every effort to apply "additional considerations", provided they do not cause a violation of the principles.

Among the resources available to the committee are complete box scores, game summaries and notes, various computer rankings, head-to-head results, chronological results, Division I results, non-conference results, home and away results, results in the last twelve games, rankings, polls, injured and available/unavailable reports and the coaches’ regional advisory committee rankings.

*The NCAA Division I Women’s Basketball Principles and Procedures for Establishing the Bracket document is included in the comprehensive review of the Division I Women’s Basketball Championship, conducted annually by the Division I Women’s Basketball Committee. This document was approved by the Division I Women’s Basketball Committee, June 2016 and will be in effect for the 2017 championship.*
I. Selecting At-Large Teams

The committee shall select the 32 best teams to fill the at-large berths.

To be selected as an at-large team, a team must have a record of .500 or above.

There is no limit on the number of teams the committee may select from one conference.

Procedures for Selecting At-Large Teams

1. Prior to selection weekend, each committee member will receive an "initial ballot" comprised of two columns listing all eligible Division I teams in alphabetical order.

   Each committee member will submit the ballot by a designated time on the first full day of the selection meeting.

2. In the first column, each committee member shall identify not more than 32 teams that, in that member's opinion, should be at-large selections in the tournament based upon play to date, regardless of whether the team could eventually represent its conference as the automatic qualifier.

3. In the second column, each committee member shall identify all teams that should receive consideration for at-large berths. There is no minimum or maximum limit in the second column.

4. A member need not vote for a team that has earned automatic qualification at the time the initial ballot is submitted.

5. Any team receiving all but one of the eligible votes in Column 1 shall move into the tournament field as an at-large selection.

6. The committee will form an "at-large nomination board" consisting of an alphabetical listing of all teams that:

   a. Received more than one vote in either of the columns of the initial ballot but, did not receive enough votes to move onto the at-large board.

   b. Did not receive more than one vote on the initial ballot, but was subsequently recommended by more than one member prior to closing initial nominations.

   c. Won or shared the regular-season conference championship or conference divisional championship.

7. The process for creating the initial "at-large nomination board" will then be closed.

8. A team may be removed from the nomination board if it receives all but two of the eligible votes.

9. A team may be added to the at-large nomination board at any time provided it receives at least three eligible votes.

10. Verbal nominations are permitted.

   Remaining Ballots

1. The committee will evaluate those teams on the at-large nomination board.

2. Each committee member will submit a list of the best eight teams from the nomination board, not in rank order, to be added to the at-large field.

3. The eight teams receiving the most votes comprise the next at-large ballot.

4. Each committee member will "rank" the eight teams, using a cross country scoring system (e.g., first or best is valued at one point).

5. The four teams receiving the fewest points shall be moved into the tournament field as an at-large selection. The other four teams will be held for the next ballot.

6. The "list" eight, "rank" eight, "move" four process will be repeated until all at-large berths have been filled.

7. If a team fails to move onto the at-large board for two consecutive at-large ballots, it shall be returned to the at-large nomination board.

8. A team may be removed from the at-large field and returned to the at-large nomination board if it receives all but two of the eligible votes.

Additional Considerations

- At any time during the process, the chair may suggest that the committee begin reviewing teams that should be eliminated from the at-large nomination board. A team may be removed from consideration if it receives all but two of the eligible votes.
The number of teams eligible to receive votes may be increased or decreased by the chair if circumstances warrant. Further, the chair has the option to revise the number of teams to be moved onto the at-large board from four to two.

At any time, the chair may call for a cross-country vote of all remaining teams on the at-large nomination board.

At any time during the process of selecting the at-large teams, the committee may elect to begin seeding the teams.

II. Seeding of Teams

The committee will create an s-curve (i.e., rank of the teams 1 through 64) which is used as a reference to assess competitive balance across the four regions. Once the s-curve is finalized, it remains unchanged while placing the teams into the championship bracket.

The bracket-placement principles may preclude a team from being placed in its “true” seed, in accordance with the s-curve.

Procedures for Seeding Teams

1. Each committee member will submit a list of the best eight teams, not in rank order, from teams that are in the tournament as automatic qualifiers or at-large selections.

2. The eight teams receiving the most votes of the eligible votes comprise the next s-curve ballot.

3. Each committee member will “rank” the eight teams, using a cross country scoring system (e.g., first or best is valued at one point).

4. The four teams receiving the fewest points shall be moved into the s-curve, in rank order. The other four teams will be held for the next ballot.

5. The “list” eight, “rank” eight, “move” four in rank order process will be repeated until all teams have been seeded in the s-curve.

6. After a team has been voted into the s-curve, it may be moved to a different position by a simple majority of eligible votes.

7. The committee is not obligated to seed the lines in chronological order. For example, at any time, the committee may use the procedures to determine the fourth quadrant of teams in the s-curve.

III. Principles for Placing Teams into the Championship Bracket

The committee will attempt to achieve relative balance in the bracket and provide comparable competition, while abiding by the remaining principles. Balance does not mean equal. After all teams have been placed in the bracket, the committee will formally adopt the bracket.

- The committee will assign all four teams in each bracket “group” (seeds 1, 16, 8, 9), (seeds 4, 13, 5, 12), (seeds 2, 15, 7, 10), (seeds 3, 14, 6, 11) to the same first-/second-round site. The first-/second-round sites that feed into a regional site may be in different geographic areas from the regional.

- Each of the first four teams selected from a conference shall be placed in different regions if they are seeded on the first four lines.

- Teams from the same conference shall not meet prior to the regional final if they played each other three or more times during the regular season and conference tournament.

- The committee will attempt to keep conference teams from meeting until the regional final round.

- If the committee is unable to balance the bracket after exhausting all possible options, it has the flexibility to permit two teams from the same conference to meet each other after the first round.

- By order of the s-curve, the committee will assign each team to a regional and first-/second-round site by taking into account distance from site, mode of transportation and accessibility by fans.

- First- and second-round sites will be awarded to the top 16 seeded teams that submit a bid that meets the requirements for hosting.

- In the event that a top 16 seeded team does not submit a bid, or the bid does not meet requirements for hosting, the committee will select a host from the remaining submitted bids that meet the requirement for hosting. In order to adhere to the bracketing principles, it may not be possible to select the next highest seed to host.
For the regional competition, a team may not be assigned to play in any arena in which it has played more than three regular-season games, not including conference post-season tournaments.

A team may be moved one bracket line from its true seed line (e.g., from a No. 13 seed line to a No. 12 seed line) when it is placed in the bracket, if necessary to meet the principles.

Procedures for Placing Teams into the Championship Bracket

1. The committee will place teams in the bracket by order of the s-curve.

2. Place the teams seeded 1-4 in each of the four regions pairing the No. 1 seed’s region against the No. 4 seed’s region and the No. 2 seed’s region against the No. 3 seed’s region. Place the Nos. 2, 3, 4 seeds in each region.

3. After the top four seed lines have been assigned, the committee will review the relative strengths of the regions by adding the “true” seed numbers in each region to determine if any severe numerical imbalance exists. Generally, no more than five points should separate the lowest and highest total.

4. In bracket line Nos. 5 through 16, the committee will use seed number to determine balance of the bracket.

5. After all teams have been placed in the bracket and the bracket assignments have been checked to ensure that the principles have been met, the committee will formally adopt the bracket.

Additional Considerations

- If possible, rematches of regular-season games should be avoided in the first- and second-rounds.

- If possible, rematches of previous years’ tournament games should be avoided in the first- and second-rounds.

- The committee shall attempt to avoid moving a team or a conference out of its natural region or geographic area an inordinate number of times and will examine the previous three tournament brackets to determine the number of times a team or conference has been assigned out of its natural region.

Ratings Percentage Index (RPI)

The Rating Percentage Index (RPI) was created in 1981 to provide supplemental data for the Division I Men’s Basketball Committee in its evaluation of teams for at-large selection and seeding of the championship bracket. The Division I Women’s Basketball Committee adopted the RPI in 1984.

The basic RPI consists of a team’s division I winning percentage (25 percent weight), its opponents winning percentage (50 percent weight) and its opponents’ opponents winning percentage (25 percent weight).

The RPI is intended to be used as one of many valuable resources provided to the committee in the selection, seeding and bracketing process. It never should be considered anything but an additional evaluation tool. No computer program that is based on pure numbers can take into account subjective concepts (e.g., how well a team is playing down the stretch, what the loss or return of a top player means to a team or how emotional a specific conference game may be).

While the various elements of the RPI are important in the evaluation process, the tournament bracket each year is based on the subjectivity of each individual committee member to select the best at-large teams available and to create a nationally-balanced championship.
