MEMORANDUM

July 14, 2017

TO: Directors of Athletics, Senior Woman Administrators, Sports Information Directors, Men’s and Women’s Head Coaches, and Conference Commissioners of Institutions and Conferences Sponsoring NCAA Division I Men’s and/or Women’s Cross Country.

FROM: Angie Lansing, chair
NCAA Division I Men’s and Women’s Track and Field and Cross Country Committee.

The NCAA Division I Men’s and Women’s Track and Field and Cross Country Committee is providing this memorandum regarding the submission of rosters and meet results for the 2017 cross country championships season.

**Cross Country Results Reporting.** Institutions must ensure that the electronic submission of results for all meets occurring from September 8 – November 6 in which their student-athletes compete are reported by the meet host to the Track and Field Results Reporting System for Cross Country (TFRRS-XC) through the online provider DirectAthletics. Results will be made available on a real-time basis at www.tfrrs.org.

As mentioned above, please note the first date a competition may be used for consideration in the selection of at-large teams to the 2017 Division I Cross Country Championships will be Friday, September 8.

Additionally, all NCAA results reported to TFRRS-XC must be submitted directly by meet software using the JSON and XML APIs. The most updated list of compliant software companies is listed below. It will be your responsibility to ensure you and your timing/results companies are using updated versions of compliant software prior to hosting any meet during the season.
Format Fully Implemented and Compliant

- Agee Race Timing, LLC
- ChuckScore
- EasyWare
- Halcyon Times
- Hy-Tek
- Jaguar
- MeetPro
- Race Director
- RaceberryJaM
- RaceTab
- RaceTrak
- RunnerCard
- RunScore
- TheTracker

Additionally, there are required sets of data that must be reported as a part of all meet results. These meet data requirements will help build consistency in the display of results across all competitions. If all required data is not submitted to TFRRS-XC in the necessary JSON or XML format, the results will not be accepted into the results reporting system, making the results invalid for NCAA championship selections. Again, host institutions are responsible for working with their timing companies to ensure that they are using software that supports the submission of all required meet data in the JSON or XML format. Please check with your timing company to verify their usage of updated software that will support the TFRRS-XC results format in advance of the 2017 cross country season. It should be noted, the standardized JSON/XML format requirement is simpler and less error-prone than the file formats it replaces.

Please also note that in order for Division I results achieved prior to the regional championships to count toward at-large selection, the course length must be no less than 75 percent of the championship race distance. Races contested on courses that are less than 75 percent of the championship distance will not be eligible for consideration in at-large qualification.

Additional responsibilities for host institutions and meet directors in submitting performances are summarized below.

Teams Rosters. Institutions that sponsor NCAA Division I men's and/or women's cross country will be required to register and maintain their official team roster with TFRRS-XC prior to their first meet. Late rosters will result in a minimum fine of $200 per gender, with potential additional fines for repeated violations.

Each student-athlete will be assigned a unique TFRRS-XC tracking identification number that will identify the student-athlete throughout his or her collegiate career. Note: This is the same
identification number used for the indoor and outdoor track and field rosters. This identification number will not change from season to season; however, institutions will be required to register their roster each season to confirm eligibility status. Roster registration for the cross country championship season is now available.

Detailed account information and instructions to set up meets and download team rosters in preparation for submitting 2017 cross country results are available for meet hosts, meet directors, and timers at www.tfrrs.org (select the link for Meet Director/Administrator Area). Take particular note of the frequently asked questions document posted which highlights the following:

1. For the purpose of running a meet, any meet director/timer can download the rosters of TFRRS-XC teams (with TFRRS-XC IDs) at no cost to the meet director/timer. All TFRRS rosters and identification numbers will be available for download in file formats easily imported into timing software;

2. Meet hosts may use their method of choice to manage meet entries;

3. It is the responsibility of the meet directors/timers to collect valid TFRRS-XC IDs from the entering teams, regardless of the meet entry method;

4. Institutions registered with TFRRS-XC also can print out or download their TFRRS-XC rosters (with identification numbers) to facilitate the entry process;

If you experience technical difficulty using the TFRRS-XC system, please contact DirectAthletics (support@directathletics.com; phone: 347-674-3002).

Meet Results. It will be the responsibility of the meet HOST to submit complete meet results, in the proper JSON or XML format to TFRRS-XC by midnight Eastern, one day after the completion of a competition. Participating institutions must ensure that the electronic submission of results from any competition occurring between September 8 and November 6 in which their student-athletes compete are reported by the meet host within five days of the performance and not later than 5 p.m. Eastern, Monday, November 6. Late results submissions that are the basis for championships selections will result in a minimum fine of $200 per gender, with potential additional fines for repeated violations.

Meet hosts will be responsible for uploading results electronically with TFRRS-XC identification numbers listed for all eligible NCAA student-athletes, requiring that TFRRS-XC identification numbers be imported or typed in for each student-athlete before running a meet. Results will be accepted only for student-athletes on the institution’s TFRRS-XC roster form.
When official meet results are uploaded to TFRRS-XC, all performances achieved by eligible NCAA student-athletes, and team scores, will be archived in the results-reporting database.

Double Duals: If you are scoring a meet as a double dual, you should upload each scoring pair as its own dual meet. For example, even if Team A, Team B, and Team C compete in the same races, you should setup and upload 3 different dual meets separately within TFRRS (A vs. B, A vs. C, and B vs. C).

Do not upload the combined results of the races, even if they are scored as double duals within your meet management software. This will ensure that each dual meet scoring pair is counted as a separate meet for legislative purposes.

**NOTE:** You cannot score the same race with both double dual scoring AND with combined scoring—you must choose one scoring method or the other. Also note that Division II institutions are NOT allowed to count double dual scoring for championship qualifying purposes.

Regional and National Championships Online Entry Process. In order to be eligible for participation in the regional and national meets, institutions must submit an online entry form through DirectAthletics prior to the regional cross country meet. Coaches may enter up to 15 eligible student-athletes on the online entry form. Only seven student-athletes, from the list of 15 student-athletes entered, may be declared to compete in the regional competition. Coaches will declare during packet pickup from the student-athletes submitted on their original entry form (maximum of 15). The runners declared for the national championships meet may be different than those who competed at the regional meet, but all must have appeared on the original entry form submitted by the appropriate deadline prior to the regional competition. If an institution declares more than seven student-athletes during packet pickup (i.e. takes an eighth or ninth set of chips and bibs), those additional sets of chips and bibs must be returned to meet management no later than 20 minutes before the start of the race. Any student-athlete competing at regionals and/or nationals must be an NCAA eligible student-athlete.

The entry form will be available beginning at 8 a.m. Eastern, Monday, October 30. All entry roster forms must be submitted by 5 p.m. Eastern, Thursday, November 2. The late deadline, with fine, for regional entries is 5 p.m. Eastern, Friday, November 3.

Late entry form submissions will result in a minimum fine of $400 per team per gender. This includes corrections to the original submission or additions/deletions to the submission. No late entry form requests will be considered after 5 p.m. Eastern, Friday, November 3. Institutions that have not submitted an entry form by 5 p.m. Eastern on November 3, will not be eligible to compete at the regional meet.
The online entry form can be accessed through DirectAthletics at [www.directathletics.com](http://www.directathletics.com). If you experience technical difficulty using the online entry system, please contact DirectAthletics (support@directathletics.com; phone: 347-674-3002).

Additional information regarding championships selections and championships schedule will be included in the pre-championships manual and will be communicated through the divisional monthly newsletter.

If you have any questions, please contact Jeff Mlynski, assistant director of championships at 317-917-6503.
