**Part I. Institutional Guidelines.**

To be eligible to represent an institution in intercollegiate athletics practice or competition, an international student-athlete shall be certified as eligible using this form. An international student-athlete is a student-athlete who either:

1. Is not a U.S. citizen; or
2. Resides in an unincorporated or commonwealth territory of the United States; or
3. Has participated in international athletics activities or was associated as an athlete with an international athletics organization.

Each international student-athlete who is participating for the first time in intercollegiate athletics at the certifying institution should be given this form to complete and sign. The form should be completed in the presence of the institution's eligibility certification official. It may be necessary for an institutional administrator to assist the student-athlete in understanding terms and to ensure that the student-athlete responds to all items. Subsequent to the student-athlete completing the form, the institution's eligibility official is responsible for investigating any answers that may result in ineligibility. Further, the statement must be signed by the institution's eligibility official and the student-athlete's head coach prior to the student-athlete engaging in competition. The completed form shall be maintained on file at the institution with other eligibility documents for a period of six years. [NCAA Bylaw 14.1.5.1]

Please be aware that your institution is responsible for:

1. Reviewing NCAA Bylaw 10.1 with the student-athlete to ensure that all information is provided truthfully and that the student-athlete is aware that further eligibility consequences could result if false and misleading information is provided.
2. Verifying the validity of the information provided by the student-athlete.

3. Analyzing the information submitted by the student-athlete and applying general amateurism and eligibility rules, particularly those related to amateurism, to determine the student-athlete's general eligibility. (NCAA Manual citations are included after each item to assist in this effort.)
4. Contacting the NCAA academic and membership affairs staff for assistance in determining the correct application of NCAA rules.
5. Advising the student-athlete that the information being provided through this form can affect the individual's eligibility.

**[Note: International student-athletes also must sign the NCAA Student-Athlete Statement, NCAA Affirmation of Eligibility and NCAA Drug-Testing Consent form.]**

## **Part II. International Student-Athlete Information.**

**[Please note that this section is to be completed by the student-athlete.]**

To be eligible for intercollegiate athletics practice and competition, every student-athlete must meet all applicable NCAA eligibility requirements. As an international student-athlete, you are being asked to complete this form because it will make it easier for your institution to determine your eligibility under NCAA rules.

This questionnaire does not relate to your admission to the school—the admissions office of your institution will handle that process separately.

You must respond to each item below and sign the form to compete in intercollegiate athletics at an NCAA institution. (Use "N/A" if the question does not apply to you.) Ask an administrator at your school for help if you do not understand an item. (References to NCAA Bylaws that follow each item are for your institution's use.) The school's eligibility-certification official and your head coach also must sign the completed form and keep it on file at the school with other eligibility documents.

**Please note that the information you provide on this form will be used to certify your eligibility and thus may impact your eligibility to compete at an NCAA institution. In addition, under NCAA rules you are required to provide accurate information. The knowing provision of false and misleading information on this form may result in additional consequences to your NCAA eligibility.**

**STUDENT-ATHLETE: PLEASE PROCEED TO THE LAST PAGE AND COMPLETE THE INTERNATIONAL STUDENT-ATHLETE AFFIRMATION AND RETURN THIS FORM TO THE APPROPRIATE ATHLETICS DEPARTMENT OFFICIALS.**

The purpose of the information below is to ascertain whether the individual has previously been involved with a team or in individual competition that would compromise the individual's amateur status pursuant to Bylaw 14.2.4.4.

The following questions will enable the NCAA member institution to better determine the individual's eligibility status.

Did the student-athlete enroll in a collegiate institution as a full-time student in or before the regular academic term that begins immediately after a one-year period (the next opportunity to enroll after the one calendar year period has elapsed) following his or her high school graduation?

YES  NO

If no, complete Sections No. 1 and No. 2 below.

If yes, skip to Section No. 2 below.

**1. Amateurism Issues.**

Did the individual:

- | <b>Yes</b> | <b>No</b> |  |
|------------|-----------|--|

If the answer to any of the questions in Sections No. 1 or No. 2 is "**YES**," the individual may have jeopardized his or her amateur status and may not be immediately eligible for intercollegiate competition in a particular sport. Therefore, it is incumbent on the institution to further investigate the individual's amateur status.

**Please note that an individual who does not enroll in a collegiate institution as a full-time student in the regular academic year term that begins immediately after a one-year period (the next opportunity to enroll after the one calendar year period has elapsed) following his or her high school graduation date (or the international equivalent as specified in the NCAA Guide to International Academic Standards for Athletics Eligibility) shall use a season of intercollegiate participation for each consecutive 12-month period after the one-year time period and before the initial-collegiate enrollment in which the individual participates in activities that meet the criteria set forth in Bylaw 14.2.4.4.2. (Please see Bylaw 14.2.4.4.2.1 for exceptions to this rule.) Further, an individual who uses a season of participation per Bylaw 14.2.4.4 shall fulfill one academic year in residence prior to being eligible to represent the institution in intercollegiate competition.**
