The previously approved waiver process was approved with an immediate effective date by the NCAA Division I Legislative Council during its April 2009 meeting. The intent behind this process is to reduce bureaucracy and permit the membership and NCAA staff to work more efficiently in limited circumstances.

Similar to previously approved incidental expense waivers in NCAA Division I Bylaw 16.12, institutions may self-apply on campus any previously approved waiver specifically listed below without filing a formal NCAA Division I Committee for Legislative Relief waiver request to the NCAA national office. An institution is only permitted to self-apply relief (approve a waiver request) if the institution's circumstances appear on the list of designated previously approved waivers and the circumstances satisfy the specified criteria established for the particular previously approved waiver. If an institution's circumstances do not appear on the list of previously approved waivers or if the circumstances do not satisfy all of the established criteria for a particular previously approved waiver, the institution must submit a formal legislative relief waiver application to the national office for consideration.

An institution that grants relief of NCAA legislation based on the specific previously approved waiver circumstances listed below must submit a report to its conference office on a quarterly basis each year. Institutions are encouraged to call the national office at 317-917-6144 with any questions related to the administration of the previously approved waiver process. The list of previously approved waivers will be updated on an annual basis by staff.
