THE IPP DATA MANAGEMENT SYSTEM

DIVISION II
#MakeItYours

Purpose

- To provide institutional leaders with vital and significant data to assist with planning, performance and oversight of their intercollegiate athletics program.

IPP Data Management System

- Consolidates data currently submitted by institutions into a more user friendly system.
- Sources of IPP data:
 - NCAA Academic Performance Census.
 - NCAA and Federal Graduation Rates data.
 - NCAA Financial Reporting System data.
 - NCAA Eligibility Center data.
 - NCAA Membership Database.

IPP Data Management System

- Disseminates data in the following categories:
 - Academics.
 - Students.
 - Leadership.
 - Financial.

Benefits

- Facilitates informed decision-making and strategic planning.
- Allows for timely identification of issues and trends.
- Institutions have autonomy to reach their own conclusions based on a review of data.

Peer Groups

- Permits comparison with other institutions.
 - Existing peer groups (e.g., conference, Division II).
 - Self-selected peer groups based on:
 - Institution/conference.
 - Enrollment.
 - Budget level.
 - By sport.
 - By number of sports sponsored.
 - Public/private.
 - Must include at least eight institutions to ensure confidentiality of other institutions' data.

Review of Data

- Institutions should conduct a broad-based review of the data annually.
- In addition to the AD, the chancellor/president should consider providing access to the following:
 - Senior woman administrator;
 - Faculty athletics representative;
 - Chief financial officer;
 - Director of student-athlete academic support;
 - Title IX/diversity officers; and
 - Provost/registrar.
