

# NCAA DIVISION II INSTITUTIONAL PERFORMANCE PROGRAM IPP DATA MANAGEMENT SYSTEM

## What is the IPP data management system?

- ▶ The IPP data management system consolidates data currently being submitted by Division II institutions into a more user-friendly format with reporting functionality.
- ▶ IPP provides leaders better visibility into their institutional data.
- ▶ The goal: to facilitate better-informed decisions and strategic planning on campus.

## How can IPP help me?

**ACADEMICS:** Review GPA data for all sports teams, including trends by gender, race/ethnicity and sport; review initial-eligibility data compared to graduation data to determine if appropriate support is provided; review trending team data to determine if other questions need to be asked or if intervention is suggested.

**STUDENTS:** View the data of your student-athletes and compare their characteristics with those at peer institutions; view how your student-athletes compare with your entire undergraduate population in regard to gender and reported ethnicity/racial groups; compare sports sponsorship with peer institutions.

**LEADERSHIP:** See breakdown of assistant and head coaches and administrators by gender, sport and race/ethnicity and compare their characteristics with peer groups and your conference.

**FINANCIAL:** View how revenue vs. expense comparison is trending; research compensation data for head and assistant coaches and administrators to compare against peer groups; and better understand the expense implications of adding a sport(s) to your athletics program.

## Why should I use IPP?

- ▶ No extra work on your end. The data you annually submit to the NCAA is already in the system.
- ▶ Secured, powerful platform provides information you can rely on.
- ▶ Peer comparison feature lets you compare your school, privately, in all data categories to existing peers (for example, conference and all Division II) and to other peer groups of your own choosing.
