

ATHLETICS PROGRAM ASSESSMENT

The NCAA Division III athletics program assessment is designed to assist institutions in establishing a model Division III athletics program. Through the process of completing the assessment, institutions can evaluate whether they possess the resources and infrastructure that are necessary to conduct a viable Division III athletics program.

Please check the box that best describes the reason your institution is completing the athletics program assessment.

Active Division III institutions on probation as a result of a failure to meet conditions of membership must satisfy the probationary requirements, including completion of the athletics program assessment. Please detail why your institution was placed on probation and specifically address how you have rectified the issue. Please be thorough in your explanation and provide additional documentation as needed. The institution must both retain a completed copy and forward a completed copy of the assessment and accompanying attachments to the NCAA Division III Membership Committee not later than May 15 of the probation year.

Provisional/reclassifying (and exploratory) applicants to Division III are required per NCAA Division III Bylaw 20.3.1.2.1 to complete and submit the athletics program assessment as an element of their application. The completed assessment will be reviewed by the NCAA Division III Membership Committee to help determine an institution's readiness to become a provisional/reclassifying member of Division III. **If the institution does not currently have a policy, procedure or process that is referenced in the athletics program assessment, the institution should attach an implementation plan. See Appendix A.**

Active member institutions undergoing major personnel changes (e.g., the hiring of a new director of athletics, athletics direct report, chancellor or president) may also wish to complete the athletics program assessment for their own educational purposes.

INSTRUCTIONS.

Your institution is encouraged to convene a review panel comprised of the chancellor or president, athletics direct report (if applicable), director of athletics, senior woman administrator, faculty athletics representative, compliance officer, director of admissions, director of financial aid and athletics health care administrator to complete the athletics program assessment. At the conclusion of the assessment, each of these individuals will be required to certify they have reviewed the assessment. Sufficient time should be allotted for an accurate and complete assessment of your institution's athletics department.

At various points throughout the athletics program assessment, supplemental documentation will be necessary to provide an accurate and thorough response. This information will be highlighted throughout the assessment and is required for a complete submission. A full checklist of all required materials is provided at the end of this document and must be included with your submission. Please label each item clearly so that it corresponds with its number on the checklist.

DEFINITIONS OF NCAA TERMS

Athletics direct report. The institutional staff member designated by the institution's chancellor or president for responsibility and oversight of the intercollegiate athletics program (NCAA Constitution 4.02.5).

Faculty athletics representative. A member of the institution's faculty or administrative staff who is designated by the institution's chancellor or president or other appropriate entity to represent the institution and its faculty in the institution's relationships with the NCAA and its conference(s), if any (Constitution 4.02.2).

Senior woman administrator. The highest ranking female involved in the management of an institution's intercollegiate athletics program. An institution with a female director of athletics may designate a different female involved in the management of the member's program as a fifth representative to the NCAA governance structure (Constitution 4.02.4.1).

Athletics compliance officer. An athletics department administrator whose responsibilities include ensuring the institution complies with NCAA legislation and conference requirements, if any.

Sports information director. An athletics department administrator who provides statistics, team and player notes and other information about an institution's sports teams to the news media and the general public.

Student-athlete advisory committee. A committee made up of student-athletes assembled to provide insight on the student-athlete experience. The SAAC offers input on the rules, regulations and policies that affect student-athletes' lives. There is a SAAC at the institution, conference and national levels. Presently, there are separate national SAACs for NCAA Divisions I, II and III. NCAA legislation mandates that all member institutions have SAACs on their respective campuses. Further, NCAA legislation requires that all member conferences have SAACs.

Athletics health care administrator. An active member institution shall designate an athletics health care administrator to oversee the institution's athletics health care administration and delivery (Constitution 3.2.4.20).
